Old School Swing Solo Seat

The „Old School“ swing saddle with leather turns your Harley into a real eye-catcher and upgrades it greatly.

- All bores and millings are milled on the most modern 5-axis CNC machining centers, so that the saddle only has to be exchanged for the original
- The saddle is top processed, fits perfectly
- All assembly materials are included

921635 Fitment: 18-20 FXBB, 20-22 FXST, 21-22 FXBBS, Unit: Kit

Frame Cover

- 100% custom-fit ABS plastic part
- All existing bores and millings are milled on the most modern 5-axis CNC machining centers
- The part will be delivered in glossy black
- Fits best in conjunction with Cult Werk swing saddle

921636 Fitment: 18-20 FXBB, 20-22 FXST, 21-22 FXBBS, Field of Application: Two holes must be drilled during assembly for the saddle base plate, Color: Gloss Black, Unit: Each

Torque 1.25" Handlebar

- Internal cable routing
- Perfect handling
- Superbike style

922756 Fitment: 07 FXDSE, 08 FXDSE2, 09 FXDFSE, 10 FXDFSE2, 05 FLSTFSE, 06 FLSTFSE2, 14-15 FLSTNSE, 13-14 FXSBSE, 10-12, 14-17 FLSTF, 11-12, 14-17 FLSTFB, 14-17 FXSB, 07 FXSTSSE, 08 FXSTSSE2, 09 FXSTSSE3, 10 FLSTSE, 11 FLSTSE2, 12 FLSTSE3, 13 FLSTF 103, 13 FLSTFB 103, 16-17 FXSE, 16-17 FLSTFBS, 03 FXSTDSE, 04 FXSTDSE II, 18-19 FXBR, 18-20 FXBRS 114, 18 FXBRS 114 ANX, 18-20 FXFB, 18, 20 FXFBS 114, 18-22 FLSE, 19-20 FLFB, 19-20 FLFBS 114, 19 FXFB 114, 21-22 FLFBS, 21-22 FXFBS, 21-22 FXBRS, 02-03 FLHRSEI, 07 FLHRSE3, 08 FLHRSE4, 14 FLHRSE, Fitment Note: Not for bar-end turn signals on TBW models or heated grips, Color: Chrome, Certification: Approved, Operation Type: Throttle By Wire, Bar ø: 1 1/4", Clamp ø: 1 1/4", Cable Routing: 3-Hole, Unit: Each

Sportster S and Nightster Handlebar

Thunderbike handlebar for Sportster S & Nightster RH.

- Available in widths: 74cm or 80.5cm
- Aluminum
- Black Matt
- With Approval

Bar ø: 28,6 mm, Clamp ø: 28,6 mm, Unit: Each

PART#	DESCRIPTION

Original Thunderbike Stripe turn signals with quick adapter for standpipe mounting ensure a particularly clean look on the bike.

- CNC milled fork holder with turn signal housing
- Sold in pairs
- Easy construction
- E-mark

923621 Fitment: 22 Sportster Nightster RH975, Color: Black, Finish: Powder Coated, Glass Color: Tinted, Certification: E-Approved, Lighting Type: LED, Unit: Pair

Nano Series Sportster S Handlebar LED Turn Signal

Inconspicuous on the handlebar end, they make large turn signals disappear and impress with their furious brightness and laser-like luminosity. State-of-the-art lighting technology in a minimal size, which is smaller than a cent piece. Precision machined from high quality billet aluminum available in black powder coated finish. The indicators are connected directly to 12V without resistors. On models with a Can Bus system, the flashing frequency of the indicators is regulated automatically.

- The new NANO light technology convinces with its tiny size and the uniquely strong luminosity
- The „black powder-coated“ aluminum is very weather-resistant and keeps the turn signals looking like new forever
- Perfect fit
- The lighting units are E-approved
- Protected design
- Made in germany

923609 Fitment: 21-22 Sportster S RH1250S , Color: Black, Finish: Powder Coated, Glass Color: Smoke, Certification: E-Approved, Material: Aluminium, Lighting Type: LED, Unit: Pair

Nano Series Sportster S Handlebar LED Turn Signals/Position Light

Inconspicuous on the handlebar end, they make large turn signals disappear and impress with their furious brightness and laser-like luminosity. - Made in germany

923610 Fitment: 21-22 Sportster S RH1250S , Color: Black, Finish: Powder Coated, Glass Color: Smoke, Certification: E-Approved, Material: Aluminium, Lighting Type: LED, Unit: Pair

Jetstream and Jetstream DF LED Sequential Lighting Turn Signals and 3 in 1 Turn Signal

The Kellermann Jetstream® is probably the most spectacular motorcycle indicator ever build. The shape is extremely aerodynamic and therefore also at high speeds very streamlined. No other motorcycle indicator with sequential lighting and ECE approval gets even close, the brightness of the Kellermann Jetstream® is unmatched. Especially overtaking becomes safer as the vehicle ahead is strongly warned by the extreme illuminating power, the danger of inadvertently change of lanes is reduced.

- Highest illuminating power
- Kellermann high power LED technology
- State-of-art „IC“- chip technology
- 32 MHz real time micro processor controlled
- Silent-Current, advanced Power Saving algorithm
- High measure of visibility across a wide angle range
- Longlife Protection Guard®
- Suitable for 12 volt DC applications
- Flow-optimized metal housing, high quality manufacturing
- M8 x 20mm thread
- High-quality vibration-absorbing bearing
- Global design protection

Color: Black, Glass Color: Clear, Certification: ECE-Approved, Lighting Type: LED, Unit: Each

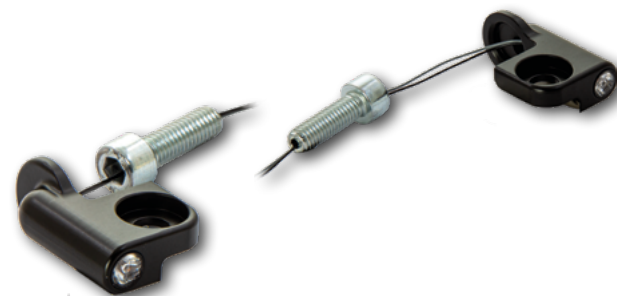

PART#	POSITION	TYPE
922807	Front, Rear, Left, Right	Indicator front and rear
922808	Rear, Left, Right	3 in 1 Indicator rear

Sportster S Handlebar Side Mount Turn Signals

Rick's Motorcycles manufactures Sportster S model fitting handlebar-tip turn signals which offer a super-clean look and are almost invisible! Manufactured from high-grade aluminum the CNC-machined brackets hide the cables inside the handlebar tube. Indicators are Atto Integral by Kellermann, fixed inside the housing. With ECE approval these indicators are street legal and can be used all over Europe.

921456 Fitment: 21-22 Sportster S RH1250S , Color: Black, Finish: Powder Coated, Glass Color: Clear, Bezel Color: Black, Certification: E-Approved, Lighting Type: LED, Unit: Pair, Qty.: 1.0

Shorty LED Turn Signals/Taillight/Brake Light with Bracket

The small holder in which the LED 3in1 lighting incl. E-mark is located was milled from an aluminum part and then powder-coated in matt black with structure (to match the frame). The new Cult-Werk icon was milled into the holder to round off the set optically perfectly! The lighting unit is simply replaced with the original version!

921530 Fitment: 19-21 Scout Bobber, 21 Scout Bobber Twenty, 22 Scout Bobber , 22 Scout Bobber Twenty , Color: Black, Glass Color: Smoke, Certification: E-Approved, Lighting Type: LED, Unit: Set

Strut Stripe Turn Signal/Taillight/Brake Light

Crumb LED Turn Signal

- Super small
- Black plastic housing
- Slightly tinted glass
- Powerful LED technology
- Front and/or rear installation
- Total width without thread 24,5mm
- Light unit dimensions 16x11x10,5mm (WxHxD)

923851 Fitment Note: E-marked as rear indicator only., Color: Black, Glass Color: Light Smoke, Certification: E-Approved, Diameter mm: 16.0mm, Lighting Type: LED, Unit: Pair

Nano 3 in 1 LED Lightbar with LED Turn Signals, Brake- and Taillight

The perfect rear conversion is guaranteed with the new 3in1 Lightbar from HeinzBikes! Inconspicuous at the rear, it hides the large original turn signals and taillights and when in use, the light units convince with furious brightness and laser-like luminosity. State-of-the-art lighting technology in a minimal size, which is smaller than a cent piece. It is mounted directly under the rear fender without the use of adapters or similar accessories. Precision machined billet aluminum with a black powder coat finish. The indicators and taillights are connected directly to 12V without resistors. In combination with the new SIDE MOUNT license plate holder, the rear of the Sportster S will shine in a complete look.

- The lighting units are E-approved
- Protected design

923608 Fitment: 21-22 Sportster S RH1250S , Color: Black, Finish: Powder Coated, Glass Color: Tinted, Certification: E-Approved, Lighting Type: LED, Unit: Kit

Gauge Mount for Clubstyle Riser

If you have a new Softail M8 model, then this bracket is what you need. The lightweight aluminum housing completely encloses your digital speedometer and creates a clean, custom look. In combination with the HeinzBikes Clubstyle handlebar risers, you can attach the speedometer exactly where it suits you best. The speedometer holder is simply clamped between the two bars of the risers.

- High quality billet aluminum, CNC machined
- Available in black powder coated or silver anodized
- Easy assembly in minutes
- Multiple mounting options in height
- Suitable for all HeinzBikes handlebar risers
- Premium Quality - German Made
- Approved
- Including GTÜ parts certificate

Fitment: 18-19 FXBR, 18-20 FXBRS 114, 18 FXBRS 114 ANX, 18-20 FXBB, 20-22 FXST, 21-22 FXBBS, 21-22 FXBRS, Fitment Note: Fits only 2018-up HD with digital HD Speedo , Certification: E-Approved, Unit: Kit

PART#	COLOR	FINISH

Speedometer Offset Kit

With this kit Low Rider models from 2018up, the Speedometers can be relocated to the original headlight mask! This ensures a much better view of the speedometer as you no longer have to look down at the tank! The offset is required in connection with our Dash Cover! It is made of steel and then powder-coated in glossy black!

No cables need to be extended during assembly, it is enough to reroute the cables to get to the right position! In principle, the holder replaces the original holder of the mask and the mask can then be attached to the new holder again! Two covers are supplied for the fittings, which serve as splash protection from below and for attachment!

921632 Fitment: 18-20 FXLR, 20-22 FXLRS, 22 FXLRST, Color: Gloss Black, Finish: Powder Coated, Material: Steel, Unit: Kit

Dash Cover

The part gives your Harley a clean, cool and flatter look on the tank and is required as a replacement for the original cover if the speedometer are relocated to the headlight mask with our offset!

During assembly it is necessary to shorten the holder for the original dash cover and then holes have to be drilled - then the cover is attached with the new supplied bracket

Certification: Approved, Fitment: 18-20 FXLR, 20-22 FXLRS, 22 FXLRST, Material: ABS, Unit: Each

Mid Version 6-Piece Fork Covers with Rubbers

Complete 6-piece fork cover kit „Mid Version“ in black with the lower covers made of aluminum or with bellows suitable for Indian ® Scout Bobber models from 2018. With this kit from Cult-Werk you cover the fork tubes above, between and below the fork bridges if the original turn signal brackets exist! This covers the fork tubes and the entire fork appears bulkier and completely black! This fork cover kit can be used with the Original Equipment front fender or custom fenders.

The individual covers are attached using concealed grub screws and thus center themselves on the fork tubes. This ensures that the cover is held securely. To ensure that the gaps between the covers and the triple clamps are exactly parallel, the covers have been provided with the same bevels as the triple clamps.

Our covers are made of high-quality aluminum and are milled on the most modern 5-axis machining centers and then powder-coated in glossy black. This guarantees the highest quality! The assembly is very simple, the upper and the lower cover are only pushed over the fork tube and screwed tight. On the inside of the lower cover there is a cut-out for clearance on the fender and is therefore hardly visible.

Fitment: 19-21 Scout Bobber, 22 Scout Bobber, Fitment Note: With original Turn Signal Brackets., Color: Gloss Black, Finish: Powder Coated, Position: Front, Material: Aluminium, Rubber, Unit: Kit
