

Radial Brake Master Cylinder

Race driven Radial Brake Master Cylinders feature built-in reservoirs which deliver stunning performance and style for any bike. With fully adjustable levers, machined fluid reservoirs and clearance for stock switch housings, this versatile system will drastically improve both the look and feel of your controls. Choose between mirror mount or clean mount options. Brake light and starter interrupt safety switch housing assemblies as well as CAN Bus brake and starter interrupt safety switch linkage kits provide compatibility with older stock wiring and newer CAN Bus systems (sold separately).

- Race driven radial mount technology increases braking leverage
- Compatible with OEM switch housings and CAN Bus wiring
- Twist adjustment knob easily modifies lever reach distance
- Over 0.5" of lever adjustment
- Lever designed for a comfortable and smooth feel
- 9/16" bore for single disc and 11/16" bore for dual disc applications
- CNC machined from billet aluminum
- 1" clamping diameter
- Mirror mounts, brake light and clutch safety switch kits sold separately

Color: Black Ops, Finish: Anodized, Bar ø: 1", Position: Brake side

Custom Radial Brake Caliper

- By design, radial mounted calipers are stiffer than traditional mounting
- Holds alignment with the rotor much better
- Improved pad contact with the disc, increased braking and minimized heat
- Machined from solid billet to reduce flex to an absolute minimum
- Incorporates four brake pads in each caliper
- Race proven technology for your bike

Color: Contrast Cut, Finish: Anodized

917209	Front, Right
917211	Front, Left

Mid Controls

Performance Machine calipers are designed to provide optimal braking power with no flex. The new 4 Piston Direct Bolt-On front calipers have been specifically engineered to mate perfectly with the M8 Touring and M8 Softail front brake master cylinders. These new calipers have the famous PM logo machined on the caliper and come in Contrast Cut, Chrome and Gold Ops finishes making them the most powerful and stylish calipers available for the new M8 generation of motorcycles.

- Aggressive riding position
- Increase cornering clearance
- Bolt-on installation
- Chrome hardware included
- Shift linkage included
- Foot and toe pegs sold separately
- Compatible with passenger floorboards or foot pegs
- Uses stock master cylinder

Color: Black Ops, Finish: Anodized, Position: Mid

PART#	FITMENT	FITMENT NOTE
918155	18-20 Softail	
918157	17-20 Touring	Will not work with stock Touring exhaust system and some aftermarket exhaust systems

Mid Control Primary Shift Shaft Plug Kit

Primary Shift Shaft Plug Kit required for M8 Softails converting from stock mid controls to Performance Machine mid controls **918155** and **918157**.

918159 Color: Black, Finish: Anodized, Fitment: 18-20 Softail, Fitment Note: Only for Models, equipped with Mid Controls.

Overdrive Rider and Passenger Pegs

Performance Machine foot pegs are destined to be paired with PM grips. We have taken the styling and comfort of PM grips and developed a line of foot pegs that mount directly to your stock H-D clevis on the 2018-UP Softail models and will have you putting on the miles effortlessly.

- Compatible with stock M8 Softail clevis
- CNC machined from billet aluminum
- Design matched to PM grips
- Sold as a pair

Contour Round Rider and Passenger Pegs

Performance Machine foot pegs are destined to be paired with PM grips. We have taken the styling and comfort of PM grips and developed a line of foot pegs that mount directly to your stock H-D clevis on the 2018-UP Softail models and will have you putting on the miles effortlessly.

Performance Machine Mid Controls are the mandatory upgrade for M8 Touring or M8 Softail models when performance riding is the goal. PM Mid Controls allow for a much more aggressive riding position and provide increased ground clearance for attacking corners. Made from 6061-T6 billet aluminum these mids are strong, lightweight and can be used with a PM rear brake master cylinder or the stock master cylinder. Steel brake linkage and chrome heim joints offer easy brake actuation and the short throw shift lever lets you quickly rip through the gears. The simple bolt-on design means no cutting into the primary cover and no modifications. Stock H-D style clevis is compatible with PM foot and toe pegs as well as other aftermarket pegs.

- Compatible with stock M8 Softail clevis
- CNC machined from billet aluminum
- Design matched to PM grips
- Sold as a pair

Superlight Rider Floorboards

The Superlight rider floorboards lay down a BIG platform for BIG boots and plenty of foot room on those long rides to stretch out. The knurled rubber insert provides a non-slip surface and further reduces vibration. You get great PM looks, extended foot room and the vibration dampening of a floating floorboard. And of course our famous Contour floorboard has been a premium choice for an aftermarket Harley-Davidson FL floorboard for many years.

918136 Color: Contrast Cut, Finish: Anodized, Position: Front, Fitment: 86-20 Touring, 09-20 Trike, 86-90 FLST, 88-03, 07-12, 14-17 FLSTC, 90-00, 03-12, 14-17 FLSTF, 93-96, 07-12, 14-17 FLSTN, 97-03 FLSTS, 01-06 FLSTCI, 01-06 FLSTFI, 01-03 FLSTSI, 05 FLSTFSE, 06 FLSTFSE2, 06 FLSTI, 06 FLSTNI, 06 FLSTSCI, 07 FLSTSC, 08-11 FLSTSB, 10-12, 14-17 FLSTFB, 10 FLSTSE, 11 FLSTSE2, 12, 14-17 FLS, 12 FLSTSE3, 13 FLS 103, 13 FLSTC 103, 13 FLSTC 103 ANV, 13 FLSTF 103, 13 FLSTFB 103, 13 FLSTN103, 14-15 FLSTNSE, 16-17 FLSS, 16-17 FLSTFBS, 12, 14-16 FLD, 13 FLD103

Superlight Mini Floorboards

What's smaller than a floorboard and bigger than a foot peg? PM Mini Boards! We've take our proven Superlight floorboard designs and created a Mini Board that's just the right size resting place for your feet without compromising function and design. The PM Mini Board design lets you mate up with the stock H-D clevis mount and the splined clevis which allows for angle adjustment forwards or back for your comfort. These Mini Boards are ideal for those that are looking for that personal perfect size fit for your feet and visual preferences.

Fitment Note: Stock HD Clevis Mount

Vision Air Cleaner

The Vintage air cleaner case was stylistically designed for a timeless look with its smooth, machine-cut shapes that promote a nostalgic feeling. The drag-race inspired induction opening will guarantee the speed freaks to nod their heads in approval. Perhaps the obvious element staring right at you is the distinguished, prominently placed bolt head that acts to secure the PM branded outer plate, boasting the U.S.A. badge of honor.

918695	Chrome		18-21 Softail

The new Performance Machine Scallop Cover Line was created to replace those uninspiring H-D stock covers that are often overlooked, but present the perfect opportunity to add a custom hot rod touch to your motorcycle. The PM Scallop Line will put the devil in the details from front to rear and top to bottom with every cover possible – Rocker Box, Cam, Clutch, Ignition, Derby, Inspection, and Transmission. Each billet aluminum cover features timeless styled machined cut scallops with the iconic PM logo. All covers are a direct replacement for OE covers that are shipped with hardware and all necessary gaskets.

Chain Conversion Kit

The Performance Machine Chain Conversion Kit includes the front and rear sprockets, rear sprocket bolts and rear sprocket spacer needed to convert your 2018-UP M8 Softail belt final drive into a heavy duty 530 O-ring chain drive. The 24 tooth front sprocket is CNC-machined from a premium 8620 nickel chromoly steel, case-hardened and finished with an electroless nickel plating for corrosion and wear resistance. The rear 51 tooth sprocket is machined from 7075-T6 billet aluminum and comes in a Black Ano finish. Both the front and rear sprockets are designed for use with .530 pitch chains. The rear sprocket spacer has the proper effective width to give you the perfect offset for proper chain alignment and comes in a Black Ano finish.

- 24 Tooth front sprocket
- 51 Tooth rear sprocket
- Offset spacer for proper chain alignment
- Rear sprocket bolts included
- For use with .530 pitch chains (not included)

918138 Color: Black, Finish: Anodized, Fitment: 18-21 Softail

Phatour 180 Front Wide Tire Dual Calipers Lower Legs Kit

The PM Phatour 180 Front Wide Tire Kit for 49 mm fork legs is artfully sculpted from heat treated 6061 billet aluminum. It features a machined PM iconic logo with a triple pin-stripe detail that extends the length of the forks. The hidden axle design gives it a clean unique look and a set of PM slider covers rounds out the package. Kit contains axle, axle covers, slider covers, lower fork legs with caliper and fender mounts to work with a 5.5" wide wheel. Caliper mounts will accommodate PM calipers or stock H-D calipers for single or dual disc applications.

The new Performance Machine Scallop Cover Line was created to replace those uninspiring H-D stock covers that are often overlooked, but present the perfect opportunity to add a custom hot rod touch to your motorcycle. All covers are a direct replacement for OE covers that are shipped with hardware and all necessary gaskets. Get them all, and make your machine a perfect Performance Machine.

- Bold Phatour 180 wide front tire styling
- Hidden axle design
- Triple pinstripe detail
- 49mm fork lowers and slider cover for 5.5" wide front wheel
- Single and dual disc applications
- Chrome hardware included
- Contrast Cut

918160 Color: Contrast Cut, Fitment: 14-21 Touring, 14-21 Trike, Fitment Note: Dual PM and Stock Caliper Mount

Tire Pressure Monitoring System Sensor Bracket for RevTech and PM Billet Wheels

Most of the new H-D applications come equipped with TPMS (Tire Pressure Monitoring System) sensors installed with stock wheels. When upgrading to Performance Machine wheels you can lose functionality but with this system you are able to maintain functionality. The bracket assembly allows the stock TPMS sensor to be installed to the existing valve stem inside the Performance Machine wheel.

- Bolt on install
- O-ring and hardware included
- Compatible with stock H-D TPMS sensor
- TPMS sensor is NOT included ...
