921660		Ready To Paint	Including LED Headlight
921659	Black	Gloss	For use with OE Headlight
921661	Black	Gloss	Including LED Headlight

Sportster S Headlamp Fairing

Rick's Motorcycles a distinctive headlight mask for the Sportster S, highlighting the sportive and clean look. The mask perfectly surrounds the stock headlight lines. Rick's headlight mask is elaborately handcrafted and easy to install.

921455 Fitment: 21-22 Sportster S RH1250S , Color: Black, Finish: Raw, Material: Fibre Glass, Unit: Each, Qty.: 1.0

Sportster S Handlebar Side Mount Turn Signals

Rick's Motorcycles manufactures Sportster S model fitting handlebar-tip turn signals which offer a super-clean look and are almost invisible! Manufactured from high-grade aluminum the CNC-machined brackets hide the cables inside the handlebar tube. Indicators are Atto Integral by Kellermann, fixed inside the housing. With ECE approval these indicators are street legal and can be used all over Europe.

921456 Fitment: 21-22 Sportster S RH1250S , Color: Black, Finish: Powder Coated, Glass Color: Clear, Bezel Color: Black, Certification: E-Approved, Lighting Type: LED, Unit: Pair, Qty.: 1.0

Sportster S Rear Turn Signal Bracket without Turn Signals

For Sportster S model year 2021-up, Rick's Motorcycles produces a rear indicator bracket that is mounted under the stock tailend. This kit is available without the pictured Kellermann Atto DF 3in1 (available separately). A red reflector is recessed into the black coated housing. Existing stock mounting points are used for installation. Installation material is included in the kit.

921451 Fitment: 21-22 Sportster S RH1250S , Color: Black, Finish: Powder Coated, Certification: E-Approved, Unit: Each, Qty.: 1.0

NEW PRODUCTS

Sportster S LED Turn Signal/Taillight/Brake Light

Cult-Werk LED lighting set 3in1 incl. bracket suitable for Harley-Davidson ® Sportster S models from 2021! The bracket on which the LED 3in1 lighting including the E-mark is attached was made of steel and then powder-coated in glossy black. The lighting unit is required if you remove the original lighting bracket and use a side license plate holder. The holder is screwed to the original mounting points in the rear part using the mounting material provided. Then the wiring of the LED lighting has to be carried out!

921662 Fitment: 21-22 Sportster S RH1250S , Color: Black, Glass Color: Smoke, : Including Bracket, Certification: E-Approved, Lighting Type: LED, Unit: Pair, Qty.: 1.0

Sportster S Front Turn Signal Bracket without Turn Signals

These brackets allow to mount Kellermann Atto or similar turn signals to be mounted underneath the handlebar controls. The brackets are black powder-coated and are delivered in pairs.

921452 Fitment: 21-22 Sportster S RH1250S , Color: Black, Finish: Powder Coated, Unit: Pair, Qty.: 1.0

Racing Mid Pipe without Catalyst

Using the racing mid-pipe without catalyst the motorcycle may only be used on closed terrain such as race tracks.

922030 Fitment: 21-22 Sportster S RH1250S , Field of Application: Only for Race Track, Finish: Satin, : Sportster S, Material: Stainless Steel, Unit: Each, Qty.: 1.0

2 in 2 Sportster S Muffler Set

Directly coming from our race experience this new product is a semi full system 2 in 2 with a central balancing pipe, the pipework is fully stainless steel made TIG welded, the 2 mufflers are from the TRACKER series in brushed stainless steel with a carbon fiber endcap.

The EURO5 homologation is obtained by the use of 2 catalyst converters in the central pipes.

The deep tone of the sound, as all the V-PERFORMANCE exhausts, is guaranteed by the special feature of the inner cartridge.

Great news also for the plate holder, a steel laser-cut piece to relocate the license plate under the tail and give to the new Harley a real racing style touch.

Fitment: 21-22 Sportster S RH1250S , : Endcap Tracker Carbon, Certification: Euro 5, Material: Stainless Steel, Unit: Set, Qty.: 1.0

922029	Black	Ceramic Coated

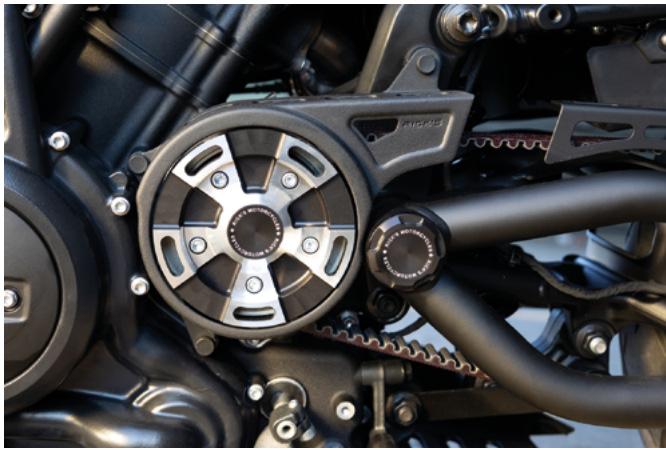

Sportster S Beltguard

The stock Sportster S belt guard ain't a design highlight of this otherwise spectacular bike. Rick's Motorcycles has developed a exchange belt guard which replaces „Bolt On“ the stock OEM component. Rick's belt guards are made from stainless steel and finished in black powder coated surface finish. The kit includes upper and lower belt guard.

921450 Fitment: 21-22 Sportster S RH1250S , Color: Black, Finish: Powder Coated, Unit: Each, Qty.: 1.0

Sportster S Side Mount License Plate Kit

Sidemount licence plate bracket for Sportster S model year 2021-up, eliminating the ugly stock bracket that hides a bigger section of the rear wheel. The bracket is available including a licence plate base plate (size 18 x 20 cm). The „slip-in“ type base plate is manufactured with a slot for the number plate and is equipped with LED number plate lighting. Existing stock mounting points are used without any modification for installation of this super-clean licence plate bracket.

921453 Fitment: 21-22 Sportster S RH1250S , **Color:** Black, **Finish:** Powder Coated, : German Size 180x200mm, **Unit:** Each, **Qty.:** 1.0

Sporster S Side Mount License Plate Bracket

Sidemount licence plate bracket for Sportster S from model year 2021-up, eliminating the stock bracket that hides a bigger section of the rear wheel. The bracket is available as „bracket only“, allowing international license plate sizes to be adapted. Only existing stock mounting points are used for installation of this super-clean licence plate bracket.

921454 Fitment: 21-22 Sportster S RH1250S , **Color:** Black, **Finish:** Powder Coated, : Only Bracket without License Plate, **Unit:** Each, **Qty.:** 1.0

Harley-Davidson and Indian Tuning Multi-Dongle

This Multi-Dongle will immediately allow you to carry out professional tuning of one Harley-Davidson® or Indian® engine. Can be used with Diag4Tune Software included in Diag4Bike Diagnostics Software #653747, #890084! That kind of Dongle is a very quick flash tuning device for EFI Harley-Davidson or Indian Motorcycles. You are allowed to tune any fuel injected Harley-Davidson motorcycle with the Delphi ECM, 06-22 models or Indian motorcycles up to 2020. Diag4Tune downloads and stores a version of the Original calibration that was saved when the Dongle was married to the ECM. After that, you have two opportunities to flash your ECM: Diag4Tune Preconfigured Maps or Diag4Tune identifies your bike's information and automatically sorts a lot of applicable Power Bench proven tunes for you to choose from. Self made Map with #619084 and the Smart Power Bench II #888128, or any other Power Bench, you are able to make your own 100% perfect Map for any kind of bike. Software version V21.1 and higher is required for use in Diag4Tune software.

921209 Fitment: 21 Pan America, 22 Pan America 1250 Special RA1250S, 07-20 Sportster, 06-17 Dyna, 06-22 Softail, 06-22 Touring, 09-22 Trike, 06-17 V-Rod, 21 Sportster RH, 22 Sportster S RH1250S, 15-20 Indian Bagger, 14-20 Indian Cruiser, 15-20 Indian Touring, 15-20 Scout, 16-20 Scout Sixty, 19-20 Scout Bobber, Fitment Note: Not all Tuning Levels are available for every Model., Unit: Each, Qty.: 1.0
